DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

I. Claims 77-80, drawn to methods for fabrication a semiconductor component, classified in class 438, subclass 612.

II. Claims 59-76, drawn to an electronic assembly, classified in class 257, subclass 774.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)).

In this case, the process can be practice for encapsulating process as recited in claims 77-80.

Because these inventions are distinct for the reasons given above and have acquired a separate status of the art as shown by their different classification, the fields of search are not co-extensive, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship

must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

During a telephone conversation with Mr. Stephen A. Gratton Reg. No. 25,436 on February 16, 2005, a provisional election was made to prosecute the invention of Group II claims 59-76 (electronic assembly). Group I claims 77-80 have been canceled.

Allowable Subject Matter

Claims 59-76 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art does not teach an electronic assembly, wherein a polymer layer substantially surrounding and adhering to the external contacts; and an underfill layer between the substrate and the component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
